

Polish free glass washing

Throw out your polishing towel and go hands free with Rhima's unique new combo glass and dishwashing underbench system. For the best in professional hygienic washing, the solution is the Rhima High Sparkle System.

The *High Sparkle System* uses reverse osmosis technology, which removes the minerals and salts eliminating the need for polishing. Therefore, no rinse aid is required.

These appliances come with a 12 month warranty & have been tested to comply with *Watermark certification*. Service contracts can be customised to suit your preventative maintenance and HACCP testing needs.

The system consists of the *Optima* dishwasher, which is a multi-functional glass or dishwasher with great features:

- multi colour start function
- meets HACCP guidelines
- 6 different wash programs
- rinse program
- clean in place (CIP)

The *High Sparkle System* is discounted for a **limited time only!**

For further information on the easy 5 step process, contact Rhima Australia.
